

6516208089.txt

I want to see the XM Radio left alone. They provide a service to me that cannot be found any where else. This is the finest radio system I have ever found and I appreciate it. It keeps me up-to-minute informed about weather and road conditions and news. I have never appreciated a radio system any more than I do the XM Radio system. Please do not change a thing about this system.
